OWNER MANUAL

ISUZU
D-MAX 2021+

WELCOME TO THE AFN FAMILY

This manual contains the **Isuzu D-MAX +2021** fitting instructions for:
Bull Bar w/ Provision for OEM Fog light and AFN indicator Ref.: 48002668
Bumper w/ Provision for OEM Fog light and AFN indicator Ref.: 48002725
Bull Bar w/ Provision for OEM Fog light and indicator Ref.: 48002771
Bumper w/ Provision for OEM Fog light and indicator Ref.: 48002772
Front Bumper w/ Middle Hoop Ref.: 48002753

1 INTRODUCTION

The Company

Founded in 1995, AFN - 4x4 Accessories dedicates itself to the production and commerce of all-terrain accessories. Its constant concern in its customers total satisfaction, and in the ideals of innovation and transformation have granted a position of notability both in the national and international panorama.

The only company in Portugal in the mass production of 4x4 accessories, relies on specialized and experienced technicians, with the most adequate knowledge, to an efficient response capability to its customers demands.

Thanks to the specialization in the several areas of design and manufacture and to a constant investment in technology, AFN has been broadening its wide range of products, without ever neglecting the quality factor.

4x4 Accessories

In its diversity of products we can include, with all-terrain quality, protection, safety and aesthetic accessories.

And it is here that AFN invest on the best technology, the best cut precision of the raw material, and the transformation of products with the quality recognized in the marketplace.

AFN has, at its disposal, resources to test and analyse the resistance of its products and stands in the front row regarding the European homologation of materials dedicated to all terrain.

The contact with the most important test laboratories for vehicles, both in England, Spain and Germany, provides AFN with the know-how to manufacture a wide range of quality products.

Our Design Approach

AFN designs each accessory taking into consideration the original model lines and fitting points. We refuse to have a "one design fits all" solution and we are always looking forward to embrace new challenges on how to adjust a new product into a new model!

The days of just throwing on a bit of steel together to form a protection system are gone. AFN is leading the way modern vehicle protection components are manufactured. Other will follow, and it won't be long where the AFN approach to Styling, Fit, Form and Function will become the benchmark for all other manufacturers.

1 CHECKLIST

- In this section you have a checklist with all parts included for the installation of your AFN product
- This product should be installed as demonstrated in the product fitting instructions
- If verified that any component is damaged, please contact your nearest AFN distributor
- The specified parts will only fit in the models specified by AFN
- Do not modify any component of the product

This checklist is for the following products **48002668 (48002771)**, **48002725 (48002772)** and **48002753**.
The **only difference** is in **Bumper's Reference**, **47002308**, **47002463** and **47002464**, respectively.

NUMBER	DESCRIPTION	REFERENCE	QTY	NUMBER	DESCRIPTION	REFERENCE	QTY
1	Front Bumper - Isuzu D-MAX 2021	47002308	1x	37	Washer M8	45001255	4x

2 FITTING INSTRUCTIONS

WARNING:

Before you begin installation, read all instructions thoroughly.
Proper tools will improve the quality of installation and reduce the time required.

- This product should be installed as demonstrated in the *Product «Fitting Instructions»*;
- The specified parts, will only fit the models specified by **AFN**;
- Do not modify any component of the product;
- It is recommended that this product is installed by specialized and trained personnel;
- AFN doesn't take responsibility for changes made in the vehicle by its manufacturer;
- Work safely and use specialized tools at all times;
- **Always use protective gear.**

Size	Torque Nm	Torque lbft
M6	9 Nm	7 lbft
M8	22 Nm	16 lbft
M10	44 Nm	32 lbft
M12	77 Nm	57 lbft

Mouting Time

- 3 hours
- 2 persons (recommended)

Tools Required

- Screwdriver star head
- Screwdriver flat head
- Wrench
- Wire cutter
- Ratchet wrench
- Allen wrench
- Crane

ATTENTION! - READ THIS BEFORE YOU START FITTING THE AFN BULLBAR | BUMPER

AFN has developed an easy and quick mounting system, where the assembly part combines both the AFN Bullbar | Front Bumper(1) and Winch Bracket(2) that is fitted on the vehicle, at once.

This assembly goes from factory, fully tightened with shims. This is what we call the «0 point of the AFN Bullbar | Front Bumper(1)».

The holes on the **Red Circles** must be correctly aligned in order to the AFN Bullbar | Bumper Assembly is on «0 point».

**ADJUSTING THE AFN BULLBAR | BUMPER**

Every AFN Bull Bar | Front Bumper is designed taking into consideration the vehicle's original lines.

In order to give a good response in terms of design, resistance and functionality, we've created some ways to adjust the AFN Bull Bar | Front Bumper to the vehicle, depending on the customer's preferences.

1 - When loosen -> allows the AFN Bull Bar | Front Bumper to be adjusted **horizontally**.

2 - When loosen -> allows the AFN Bull Bar | Front Bumper to be adjusted **vertically and depth**.

**Step 1**

Start by removing the **OEM* Plastic Cover**.

There are 8x OEM* plastic pins to be removed.

Then, go to the **OEM* Air Entrance** and loosen it so the OEM* Plastic Cover can be taken out.

There are 2x OEM* plastic pins.

(Be aware that you must save the OEM* pins.)

The **OEM* Plastic Cover** and **OEM* Air Entrance** will be fitted again later on.

Step 3

Once that is done, remove the **OEM* Top Grill**.

There are 3x Bolts and one 1x Bolt in middle, as shown is the image.

(Be aware that you must save the OEM bolts.)*

The **OEM* Top Grill** will be fitted again later on.

Step 4

Then, remove the **OEM* Grill**.

There are 4x OEM* Plastic Pins.

(Be aware that you must save the OEM bolts.)*

The **OEM* Grill** will be fitted again later on.

Step 5

Now it's time to loosen the **OEM* Plastic Fenders**.

There are 6x plastic pins and 1x bolt in the inner side.

Then, on bottom, there are 1x flange nut and 1x plastic pin.

(Be aware that you must save the OEM bolts and nuts.)*

The **OEM* Plastic Fenders** will be fitted again later on.

Then, under the **OEM* Bumper**, there are 2 plastic parts, on each side.

There are 2x bolts and 1x plastic pin on the bigger part. The other one only has a fastener.

Step 6

Now the **OEM* Bumper** is loosen, so gently force it out.

There are fasteners all the way of the **OEM* Bumper**.

Be in mind to disconnect all plugs of the Parking Sensors and lights.

If you done correctly, this is what it should look like.

Step 7

Once that is done, remove both **OEM* Side Plastics**.

There are 2x Bolts.

Be in mind that the lower bolt is fixing the **Headlight**, so we advise to fit it back as soon as the plastic part is out.

If you done correctly, this is what it should look like.

Step 8

Then, remove the **OEM* Central Reinforcement**.

There are 4x Bolts in the front and 3x Bolts on bottom.

We advise to unscrew the bottom bolts first.

Step 9

Once that is done, remove the **OEM* Radiator Side Covers**.

Start by loosen the top plastic parts, they only have 1x Plastic Pins.

(Be aware that you must save the **OEM* pins**.)

The **OEM* Radiator Side Covers** will be fitted again later on.

Step 10

Finally, remove both **Front Bumper Brackets (inner)**.

It has 1x Bolt, on each.

Step 11

Then, remove both **Front Bumper Brackets (outer)**.

There are 2x Bolts, on each.

Repeat this step on the other side.

If you done correctly, this is what it should look like.

Step 12

Then, it's time to remove the **OEM* Grill**, just gently push it out.

There are fasteners all the way of the grill.

Once that is done, it's time to carefully detach the cabling of **Parking Sensors**.

Then, with extra careful remove the **Parking Sensors** from the **OEM* Bumper** and apply them on the **AFN Bullbar | Front Bumper(1)**.

Step 13

Once the *OEM** Grill is out, it's time to trim it. Just below the 2nd line. *(see the final result)*

Bear in mind that this is a precision task, so please take time to correctly trim the Grill.

You may apply some tape to mark the trimming line.

You may have to do the final touches in the trimming the grill. When it's done, and if you want to do a cleaner job, you may use a file to smooth the rough edges.

Step 14

Finally, it's time to remove the *OEM** Fog Lights and Indicators.

Every lamp has 3x *OEM** Bolts and .

Step 15 - Preparation of the AFN Bullbar | Front Bumper

Step 15 - Preparation of the AFN Bullbar | Front Bumper**Installation**

Before installing the **AFN Bullbar | Front Bumper(1)** on the vehicle there are some details that we advise to do first, in order to be easier the fitting into the vehicle.

Start by removing the **Front Skid Plate(56)** from the **AFN Bullbar | Front Bumper(1)**.

You may leave the 4x Bolts **M10x30(21)** finger tightened in the **Winch Bracket(2)**, so you don't loose them.

The **Front Skid Plate(59)** will be fitted again, later on. *(these bolts are already fitted on the Bumper)*

Then, remove the **Plastic Mask for Fog and Indicator Lights(A1) -> (12)**.

10x Bolts **M4x16 (B1)**. *(these bolts are already fitted on the Bumper)*

Also remove the **Aluminium Bracket(70)**.

6x Bolts **M4x12(33)** with 6x Flange Nuts **M4(32)**. *(these bolts are already fitted on the Bumper)*

Once that is done, fit the **OEM* Fog and Indicator Lights** on the **Left Aluminium Bracket(70)**.

Use all 6x OEM* Bolts, 3x for each lamp. *(red dashed circles)*

Please note the triangles on the **Left Aluminium Bracket(70)**, which indicates the right orientation when fitting. **They must be up.** *(red circles)*

Repeat this step for the other side, using **Right Aluminium Bracket(71)**.

Step 16 - Fitting the Headlight Brackets

Step 16 - Fitting the Headlight Brackets

Installation

Before fitting the **AFN Bullbar | Front Bumper(1)** on the vehicle there are some details that we advise to do first.

Start by fitting the **Left Bracket for OEM Headlight(67)**, using 3x OEM* bolts. (see red circles, on picture below)

Then, take on **Left Headlight Plastic(61)** and fit 2x Plastic Nuts(30) on it, just like the image on the right.

Then, fit the **Left Headlight Plastic(61)** on the **Left Headlight Bracket(65)**, using 2x Bolts M3,5x16 (31).

Once that is done, fit that **assembly** on the vehicle. (see picture below)

Use 2x Bolts **M6x16(26)** with 4x Washers **M6(15)** and 2x Nylock Nuts **M6(17)**.

Give the final torque.

Once it is in place, fit above the **Left Side Plastic(63)**, using 2x Bolts **M6x20(24)** with 2x Cage Nuts(25).

Then, in the rear part of **Left Side Plastic(63)** use 1x T-Head Bolt **M6x20(52)** with 1x Washer **M6(14)**, 1x Lock Washer **M6(18)** and 1x Nut **M6(18)**.

Give the final torque.

The final step is to fit 1x **Headlight Reinforcement(69)** connecting the **Left Headlight Bracket(65)** to the **Vehicle**.

Use 2x Bolts **M6x16(26)** with 4x Washers **M6(15)** and 2x Nylock Nuts **M6(17)**.

Repeat all of these steps for the other side, using **Right Headlight Bracket(66)** with **Right Headlight Plastic(62)**, **Right Side Plastic(64)** and **Right Bracket for OEM Headlight(68)**.

Step 17 - Fitting the AFN Bumper and Winch Bracket Assembly on Chassis

Preview

Parts needed:

x1 Bull Bar ISUZU D-MAX 2021

x2 Washer M10

x4 Washer M8

x2 Nylock Nut M8

x2 Bolt M8x25

x2 Bolt M10x35x1.25

x2 Double Hole Washer

Step 17 - Fitting the AFN Bumper and Winch Bracket Assembly on Chassis**Installation****ATTENTION!**

AFN has developed an easy and quick mounting system, where the the assembly part combines both the AFN Bullbar | Front Bumper(1) and Winch Bracket(2) that is fitted on the vehicle, at once. This assembly goes from factory, fully tightened with shims. This is what we call the «0 point of the AFN Bullbar | Front Bumper(1)».

The holes on the **Red Circles** must be correctly align in order to the **AFN Bullbar | Bumper Assembly** is on «0 point».

So, with help of another person or a crane, lift the **AFN Bullbar | Bumper Assembly** and fit it in the vehicle, as shown in the image.

Use 2x Bolts **M10x35x1.25(48)**, with 2x Washers **M10(36)**, and 2x Double Hole Washer(**60**), in the bottom.

Then, on top, use 2x Bolts **M8x25(43)**, with 4x Washers **M8(37)** and 1x Nylock Nut **M8(41)**.

Just finger tight all bolts

Do Not tighten yet.

If you have done it correctly, this is what it should look like.

Step 18 - Fitting the AFN Recovery Points on Winch Bracket and Chassis

Preview

Parts needed:

- | | | | | | |
|---|--|---|--|---|--|
| 3

x1 Recovery Point Left Side | 4

x1 Recovery Point Right Side | 11

x1 Lower Skid Plate | 19

x2 Bolt M12x90x35 | 29

x2 Bolt M10x30 | 34

x12 Washer M12 |
| 35

x10 Washer M10 Big | 36

x2 Washer M10 Small | 44

x4 Bolt M12x40 | 45

x6 Bolt M10x35 | 47

x2 Bolt M12x30 | 48

x2 Bolt M10x35x1.25 |
| 49

x4 Lock Nut M10 | 50

x8 Lock Nut M12 | 57

x2 Winch Reinforcement Clamp | | | |

Step 18 - Fitting the AFN Recovery Points on Winch Bracket and Chassis**Installation**

Once the **Assembly** is fitted, it's time to fit **Left Recovery Point(3)** connecting the **Winch Bracket(2)** to the **Chassis**.

Use 1x Bolt **M10x35x1.25(48)**, with 1x Washer **M10(36)**, on top.

On the bolts that fit directly into the chassis be careful so you don't damage the Chassis' thread pitch.

Use 1x Bolt **M10x35(45)**, with 2x Washers **M10(36)** and 1x Nylock Nut **M10(46)**, on bottom.

Then, on the side, use 1x Bolt **M12x90x35(19)** with 2x Washers **M12(34)** and 1x Lock Nut **M12(50)**.

Also, on the side, use 1x Bolt **M12x30(47)** with 2x Washers **M12(34)** and 1x Lock Nut **M12(50)**.

Then, use 2x Bolts **M10x35(45)**, with 4x Washers **M10(35)** and 2x Lock Nuts **M10(49)**.

Once the **Left Recovery Point(3)** is fitted, use 1x **Winch Reinforcement(57)**.

Use 2x Bolts **M12x40(44)**, with 4x Washers **M12(34)** and 2x Lock Nuts **M10(50)**.

Repeat all of these steps for the other side, using **Right Recovery Point(4)** and **Right Winch Reinforcement(56)**.

Once both **Recovery Points** are fitted, it's time for the **Lower Skid Plate(11)**.

Use 2x Bolts **M10x35x1.25(48)** and 2x Washers **M10(35)**.

Please note that if you AFN Sump Guard Skid Plate - 48002732 to be mounted, use the supplied bolts for this case.

Just finger tight all bolts

Do Not tighten yet.

If you have done it correctly, this is what it should look like.

Step 19 - Full tightening the AFN Bullbar | Front Bumper

Preview

Parts needed:

- | | | | | | |
|--|---|--|---|--|---|
| <p>23</p>  <p><small>STAINLESS STEEL</small></p> <p>x4 Washer M12</p> | <p>27</p>  <p><small>STAINLESS STEEL</small></p> <p>x2 Bolt M12x30</p> | <p>28</p>  <p><small>STAINLESS STEEL</small></p> <p>x2 Washer M12</p> | <p>53</p>  <p>x1 Plate Bracket</p> | <p>54</p>  <p>x1 Front Winch Bracket Shim
2,5mm thickness</p> | <p>59</p>  <p>x2 Side Winch Bracket Shim
4mm thickness</p> |
|--|---|--|---|--|---|

Step 19 - Full tightening the AFN Bullbar | Front Bumper**Installation**

Start by loosen the 2x Bolts of the Center in the **AFN Bullbar | Front Bumper(1)**, one at a time.

Then, fit the **Plate Bracket(53)** using the same 2x Bolts **M12x30(27)** with 4x Washers **M12(23)** and 2x Nylock Nuts **M12(28)**. *(these bolts are already fitted on the Bumper)*

Now, it's time to check if the **AFN Bullbar | Bumper(1)** is correctly aligned to the **Vehicle**.

If not, loosen the **Bolts of the Winch Mount** and **ADD/REMOVE** the shims, depending on what suits better between the **AFN Bullbar | Bumper(1)** and the **Vehicle**.

The side shims(58) and (59) allows the corners of the **AFN Bullbar | Bumper(1)** to open or to close, depending if they are fitted or not.

The front shims(54) and (55) shortens or extends the distance of the **AFN Bullbar | Bumper(1)** to the **Vehicle's fenders**.

Mind that this is a precision task, please take time to correctly assemble this step.

Use them only if you have to, they are optional and may not be needed.

Once the **AFN Bullbar | Bumper(1)** is in place, there is a tightening order to it.

Tightening order:

- 1** - Start by the **4x Bolts** on the chassis;
- 2** - Then, the **4x Bolts** on top of the Winch bracket;
- 3** - The **3x Bolts** on each side, of the Winch bracket;
- 4** - The **5x Bolts** on each side, of the Recovery Points;

Check the Initial notes on adjusting the Bumper, on page 7.

Once everything is correctly fitted,
Give the final torque.

The **AFN Bullbar | Bumper(1)** must have an equal gap (**10-15 mm**) on both sides.

Step 20 - Fitting the Wings in the AFN Bullbar | Bumper

Preview

Parts needed:

Step 20 - Fitting the Wings in the AFN Bullbar | Bumper**Installation**

Take on **Left Wing(7)** and fit it on the **AFN Bullbar | Front Bumper(1)**.

But first we advise to fit 6x Cage Nuts **M6(25)**.

On the Rear, fit 5x Plastic Nuts **M3,5(30)**.

Tip1:

You may use a screwdriver to easily fit the 10x Cage Nuts(25).

Tip2:

You may use a rubber mallet to easily fit the 12x Plastic Nuts(30).

Once that is done, fit the **Left Wing(7)** in the **AFN Bullbar | Bumper(1)**.

Use 6x Bolts **M6x20(24)** with 6x Washers **M6(22)** and 6x Plastic Washers **M6(51)**.

Give the final torque.

Move the **Plastic fender** against the **Left Wing(7)** and mark the cut line. then cut OEM* plastic fender.

After the **Plastic fender** is cutted, move it to the inside of the **Left Wing(7)** and drill a **7mm** diameter hole.

Then, move the **Plastic fender** to the outside of the **Left Wing(7)** and fit them through these holes using 5x Bolts **M3,5x16(31)**.

Repeat all these steps on the other side for the **Right Wing(8)**.

Give the final torque.

56

x4 Bolt M10x25 STAINLESS STEEL **x1 Front Skid Plate**

Step 21 - Fitting the Skid Plate in the AFN Bullbar | Bumper**Installation**

Start by fitting the **Front Skid Plate(75)** beneath the **AFN Bullbar | Front Bumper(1)**.

Use 4x Bolts **M8x25(23)**.

Give the final torque.

Once that is done, it's time to fully tight the 2x bolts on the **Lower Skid Plate(11)**.

Give the final torque.

Finally, fit back both **OEM* Plastic Cover** and **OEM* Air Entrance**, that were previously removed.

Reuse all the 10x **OEM*** plastic pins.

Step 22 - Final Result

Your new **AFN Bullbar | Front Bumper** is now installed on your **Isuzu D-MAX**!

Have Fun!

Reminder !

Before operating a vehicle fitted with an **AFN Front Bumper | Bullbar**:

- Make sure all fittings are tightened
- Check winch operation (if installed)
- Check all electrical wiring attached to lights and parking sensors (if installed)

Maintenance | Care

Periodically check and tighten all nuts. Stripped, fractured or bent bolts or nuts need to be replaced.

3 D-MAX CATALOGUE

4 WARRANTY TERMS

AFN4x4 products are warranted free from defects in materials and workmanship for a period of two (2) years from the date of initial retail purchase. Third-party components are delivered under the original manufacturer warranty.

Under the present warranty, **AFN4x4** obligation shall be limited to repairing, replacing or crediting, at its option, any part found to be defective.

AFN4x4 does not warrant or make any representations concerning its goods when:

- a) The products are purchased used, scratch and dent or when the box was opened.
- b) The products are not installed, used, and maintained strictly in accordance with **AFN4x4**'s instructions.
- c) The products are installed in vehicles that are used in competition.
- d) The products are installed in vehicles fitted with aftermarket non-standard tires with diameters in excess of OEM* specifications.
- e) The products are installed in vehicles with engines that have been modified to increase performance.

AFN4x4 will not be responsible for goods damaged in transit. If any goods arrive damaged, please contact the **AFN4x4** as soon as possible. **AFN4x4** will assess and may arrange to have the damaged goods returned to a **AFN4x4** Distributor and arrange for a replacement of the goods. Damaged goods must be returned in the condition received by you with all original packaging, accessories and/or manuals. If they are not returned in same condition sent there may be an additional fee charged.

To file a claim under this warranty please contact **AFN4x4** at +351 256 808 300 or via email at geral@afn.pt to request a *Returned Goods Authorization (RGA)* number and instructions for returning the defective component.
